## Sustainability

At QX Bathrooms we take sustainability seriously. We understand that our actions have an impact on the environment and future generations, and we are committed to minimising our ecological footprint. Our company believes that every small step can make a big difference in preserving our planet, and that is why we have made sustainability a core value in everything we do. From the materials we use to the products we offer, we strive to create a more sustainable and eco-friendly world. The products within this brochure have all undergone due consideration to the design, materials used and the packaging they arrive in. We have worked hard to remove plastic from our packaging, and would encourage everyone to recycle the packaging our products arrive in wherever possible. We have added our 'Recycle Responsibly' logo to our cardboard packaging to help remind everyone throughout the chain of the importance of recycling. Together we can make a difference for generations to come.

# Suites & Sanitaryware

Our suite shots within this brochure have been created with shape, style, range and budget in mind.

They are designed to inspire; replicating how a WC can be unified with our other products to create the perfect bathroom setting.

Our collection of WC's feature the latest in Rimless and Tornado flush technology, with increasing numbers of options in comfort height, back to wall and wall hung specifications.

This brochure sees the introduction of the **NEW** Tima suite which features elegant soft square edges, and is available in a full range from close coupled to wall hung.

Further enhancements see the introduction of more colours to the push button ranges, allowing colour co-ordination across an array of product groups.

Discover the perfect balance of design, functionality and sustainability within the QX suite ranges.

## Taps & Accessories

The brassware within a bathroom is key in tying all the other design elements together.

Whether it is a contrast in colour, or a matching of shapes that is required, we have meticulously selected a range of taps and accessories to suit all projects.

With over 25 different tap shapes, and 3 different colour options in selected ranges, there is a tap 'family' for every project.

The right Accessories give a bathroom the feel that every detail has been considered. With options ranging from traditional to modern, and square to round, we have the finishing touches that you are looking for.

If a more practical approach is required, we have a range of comfort accessories such as grab bars and shower seats, that facilitate a more encompassing bathroom.

All Aveiro Taps Require Min. 0.5 Bar Pressure unless otherwise stated

# Bathing

At QX, our philosophy centres around strong design, exceptional quality, and a focus on choice. Through partnerships with our designers and manufacturers, we have created a range of baths that caters to all preferences and requirements, whether it's a contemporary inset or a classic freestanding bath that serves as the centrepiece of your bathroom.

If space is at a premium we have a number of smaller sizes, along with corner bath options and dedicated shower baths for dual purpose. In many options we offer both Standard and Ascent Superspec finish, with the Ascent offering giving an added rigidity to the bath.

A freestanding bath brings an element of luxury to the bathroom, and the **NEW** Tima freestanding bath, with built in tap and soap ledge, offers that and more in abundance.

An alternative option to add some luxury is one of our 6 whirlpool systems. These systems can be custom fitted to the majority of our bathing range.

The Alpha range of baths offers excellent quality at outstanding value for money, and has availability in the most popular sizes.

**Please note: All Genesis and Ascent Baths come with adjustable bath leg sets that range from 86mm to 180mm.**

## ASCENT SUPERSPEC

Acrylic baths offer a range of benefits that make them a popular choice among homeowners. First and foremost, acrylic is a lightweight and durable material, making it easy to handle during installation and resistant to cracks or chips over time. Additionally, acrylic is a non-porous material, which means it is highly resistant to stains and easy to clean, requiring only mild soap and water for regular maintenance. Furthermore, acrylic baths have excellent heat retention properties, allowing the water to stay warm for longer periods, creating a luxurious and relaxing bathing experience.

Our Ascent Superspec baths have an additional layer applied to the outer surface of the standard bath. This process not only increases the overall thickness it further improves the heat retention properties synonymous with acrylic baths.

### ACRYLIC

Acrylic is lightweight, durable, non-porous and versatile. This makes for a perfect material for the inner surface of a bath tub, that remains warmer for longer and offers a soft feel to the touch.

### BASE BOARD

All our baths come with a fully encapsulated base board. Made from moisture resistant chipboard the baseboard stiffens the bottom of the bath, offers greater insulation and provides a strong core on which to mount the bath onto the legs.

### POLYESTER-GLASS COMPOSITE

Our Polyester-glass composite is sprayed onto the back side of the acrylic and encapsulates the base board on all of our baths. This gives the bath exceptional strength whilst maintaining a low weight profile.

### ASCENT SUPERSPEC

Offering increased structural durability and significantly improved insulation properties through an additional composite polyester glass layer.

Waterfall Spout

## Showering

Showering facilities have become an integral part of modern living, with functionality being combined with colours, textures and glass finishes to create a bathroom in keeping with the styling of the rest of the house.

Recent trends have seen a very minimalist approach to enclosures with walk-in Showerwall installations increasingly popular. With varying glass thickness's, glass colours and profile finishes across our brands, we can satisfy all walk-in aesthetics.

With aesthetics now carrying a clear role in the shower room, we offer a multitude of options when it comes to the Shower Valve, Shower Head and controls. From exposed Chrome valves, though to colour coordinated Brushed Brass and Matt Black finishes, our offering remains on trend.

The look and feel of the shower room now extends into the Shower Tray, and we offer a multitude of sizes, styles and finishes, including anti-slip and stone effect trays, as well as wetroom forma trays with inbuilt fall and waste.

The **NEW** concise range of Alpha trays, with its unique flush cover cap, epitomises style but at our most affordable price.

### Alpha

Our Alpha range of enclosures is our most economical, featuring 6mm glass as standard and covering the most popular sizes.

### GENESIS

The 6mm range of Genesis enclosures feature an extended offering, with Corner Entry and D-Shaped enclosures adding additional benefits. Further opportunities exist with Matt Black frames in the Pivot Door, and the Genesis Showerwall, now in 8mm glass, available in Matt Black with smoked glass, as well as Brushed Brass and Silver frames in clear glass.

### CLASSIC

Our Premium 6mm offering sees a Framed Showerwall option, in both Silver and Matt Black frames, coupled with a full range of standard enclosures, in a range of sizes, with the addition of a space saving Pentangle option.

### GENESIS DELUXE

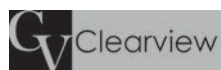

The **NEW** 8mm Slimline Genesis Deluxe range features a slim frame structure, mini rollers for the Sliding Doors, and quick installation features that make this range stand out. Gun Metal Grey finishes within the showerwall offering, as well as Fluted Glass for added privacy offer even greater appeal.

### ascent PREMIER

With exposed rollers and a semi-frameless design, this 8mm range of enclosures offers style and functionality, with the options of Smoked Glass and Black frames.

### ASCENT 10

Our 10mm offering represent our most indulgent enclosures. Stainless Steel frames coupled with the finest rolling mechanisms and self-close hinges, creates an offering that exudes class and sophistication.

## GENESIS ANTI-SLIP

- 40mm Stone Resin Tray
- Unique Slip-Resistant Surface\*
- Optional Leg & Panel Kit for Easy-Plumb Installation
- 10 Year Manufacturers Guarantee
- Available in 32 size options
- Requires 90mm Waste Fitting (Not Included)
- Panel Height - 100mm

\* This tray has a slip resistant surface which has passed tests with a B rating at an independent testing house. This however does not completely prevent slips or trips within the tray, which will become wet during normal use, and should be used with necessary caution.

# Ascent Wetroom Trays

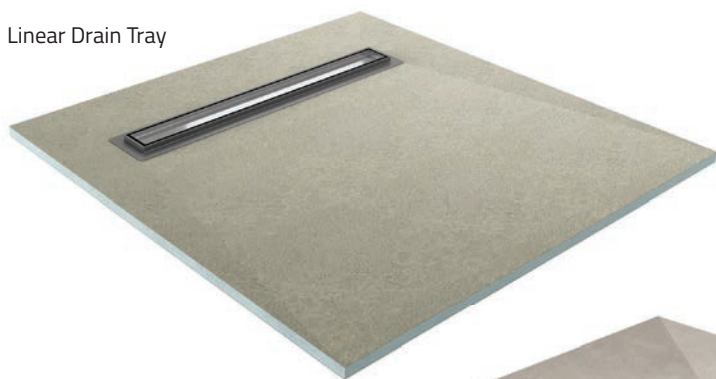

Pre-Formed Wetroom Shower Base

Designed for walk-in shower and wetroom applications, the Ascent Wetroom Trays are pre-formed to create an effective water slope to the drain. They are floor level panels that can easily be trimmed to fit the shower area. Trays are ready to receive a tiled finish of the customers choice.

Ascent pre-formed Wetroom Trays are made using a waterproof extruded polystyrene (XPS) and are covered on both sides in a combination of polymer resin and quartz, compatible with most tile adhesives. All Wetroom Trays are exclusively made to accept our QX range of Linear and Square Drains. They are sufficiently robust to be covered with mosaic tiles without the risk of compression through point loading.

Ascent Wetroom Trays and Boards are suitable for use with Underfloor Heating. All Drains can also be used without a shower base. **NOTE: Ascent Wetroom Trays ARE NOT SUITABLE for Vinyl Flooring.**

Ascent Wetroom Square Tray and Pure Square Drain  
Drain is disguised with matching, neat tiling

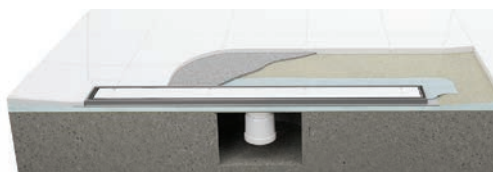

Ascent Wetroom Square Tray and  
Zonda Square Drain

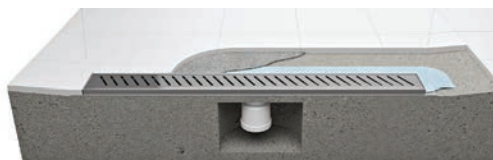

Tray & Drain using  
underboarding,  
including under trap

Tray & Drain laid  
directly on floor  
boards

Tray & Drain laid  
directly onto a  
concrete floor

Drain only creating  
a channel for the  
trap and wastepipe.

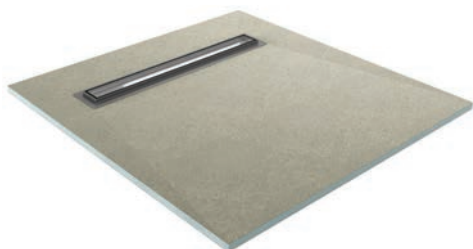

## Installation

- Ascent Wetroom Trays can be laid directly onto existing wooden or concrete floors but must be supported over it's entire area, including trap (see diagram).
- Wooden floors can be lowered by 'under-boarding'. Removing the existing floor boards, fixing battens and plywood, finishing level with the top of the joists.
- If the tray is to be laid onto the existing floorboards, they must be in good condition and must be screwed down at very close centres.
- When the tray is laid onto a concrete floor, the surface below the tray must be perfectly flat, with a channel for the trap & waste pipe.
- Care must be taken when preparing the slopes to the drain in all applications.
- **Trays can be trimmed on-site to exact requirement, up to a maximum of 50mm\***

*\*If trimming is required, an even amount must be trimmed from opposing sides of the tray.*

Square Shower Base for Square Drain

Rectangular Shower Base for Square Drain

For Trays with corner waste, the waste is positioned 210mm from the edge of the tray to the centre of the waste.

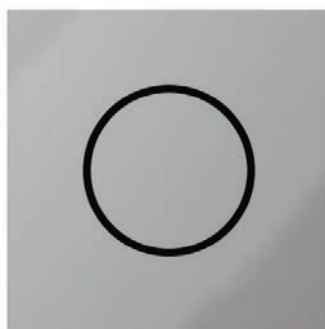

Rotate Tray Base for best Waste position

Square Drains are produced from 304 grade stainless steel and feature a flange on all four sides, enabling a perfect waterproof seal between the tiles and the drain, complimented by a textile sealing membrane.

Square Drains are available from stock in the following sizes: 120 x 120mm & 150 x 150mm

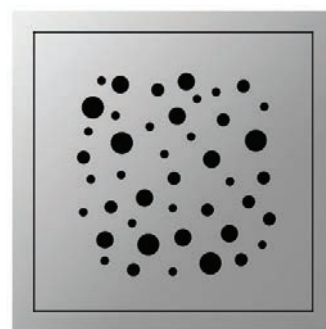

Pure Square Drain  
Ready for Tiling

Dimensions: 1000 x 200mm

£716.00 Exc. VAT **£859.20 Inc. VAT**

- **MUST** be recessed into the wall
- Shower Handset & Hose
- 4 Round Body Jets
- Can be used with your choice of Overhead Shower (*Sold Separately*)

## Wall Panels & Flooring

With wall panel options manufactured from Marine Grade MDF, to hollow core PVC and now a **NEW** solid core PVC, we offer many different options be it colour, texture or size, with all being quick and easy to install.

The **NEW** AquaGen wall panelling features a 100% waterproof solid-core material in 6 plain finishes and 6 all-new tile finishes. With extremely tight board joints, and grout lines that look like the real thing, it is easy to see why they are mistaken for real tiles.

Within this range there is also a brand new ridged walnut board that creates the look and feel of acoustic panelling, and further adds to our Aqualine linear panelling options.

No bathroom is complete without the perfect floor and our **NEW** QX Flooring range offers exceptional quality and choice.

The SPC Click flooring, whether in wood or tile finishes, creates a warm and inviting base on which to build a design-lead bathroom.

Our Alpha panels are easy to handle, easy to install and our most price conscious range. Made from hollow-core PVC – 100% waterproof.

Made from a solid-core PVC, the AquaGen Panels are 100% waterproof and available in plain, tiled and ridged panel options.

Quest Panels are made from a solid-core Marine Grade MDF, available in straight edge and tongue and grooved options.

The Ascent Aqualine offers a small range of linear boards to add depth and texture.

The QX Wood and Tile effect flooring has total thickness of 6mm, including underlay, SPC core, and wear layer.

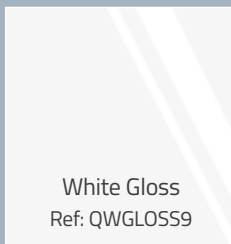

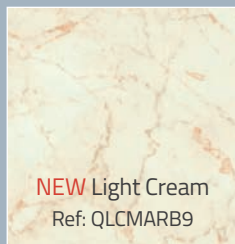

Quest 11mm thick MDF Wall Panels are a fantastic alternative to ceramic tiling - it's quick to install and maintenance free, with no grouting or mould growth and is available in a choice of 17 colours.

All panels are available in 2400mm height and 1200mm width. A selected number of boards are also available in 900mm width. Panels can be cut on site to suit a variety of installations with the cut edges always hidden within the silver aluminium end or corner profiles. Several finishes are also available Tongue & Groove

## Straight Edge Boards

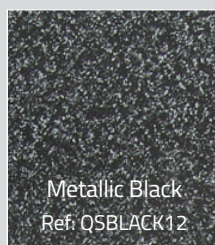

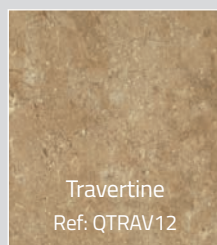

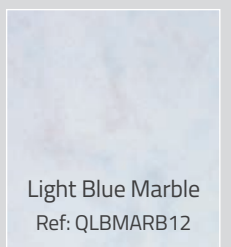

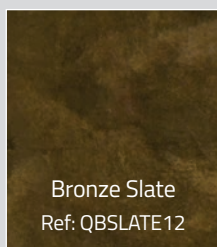

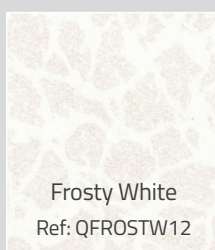

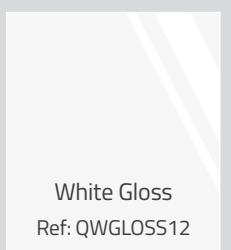

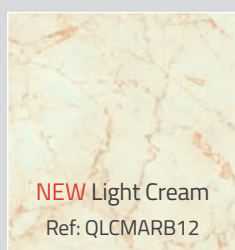

### 900mm Boards

£241.00 Exc. VAT **£289.20 Inc. VAT**

### 1200mm Boards

£274.00 Exc. VAT **£328.80 Inc. VAT**

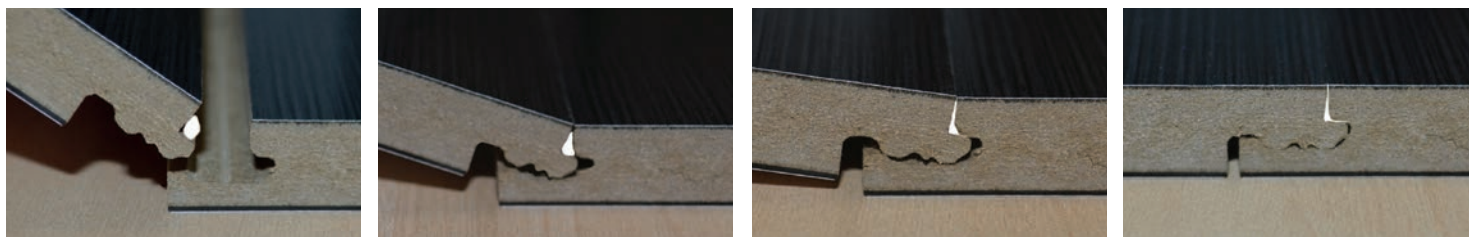

### Installation

- Panels can be installed over any existing wall finish, providing it is in a sound and dry condition. Panels are quickly fixed using a high grab adhesive, which will adhere to plasterboard, ceramic tiles and other existing finishes.
- Where the wall is damaged or out of true, it may be necessary to first install battens at 300mm vertical or horizontal centres, which can be used to fix the panels.
- Shower enclosures should be fixed directly to the panels using silicone and the recommended fixings so that the panels extend to the full height of the shower and beyond that actual width of the enclosure.

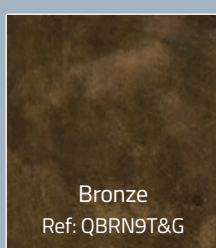

Bathroom/Shower Panels - 11mm Overall Thickness with High -Performance MDF Core

## Tongue & Groove Boards

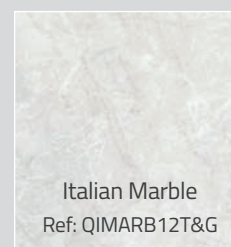

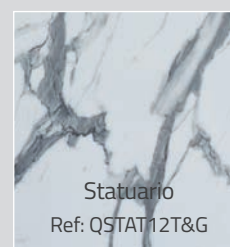

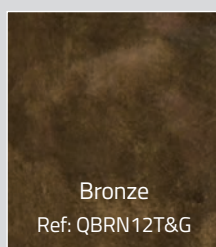

### 900mm Boards

## Furniture

With furniture now commanding a prominent role within bathroom design we make every effort to make sure our quality, design and innovation are in keeping with current trends and expectations. Utilizing our many years of industry knowledge, and pairing that with our partner factories attention to detail and dedication, we are able to offer products that not only fulfil day-to-day requirements but excite and inspire.

Our furniture portfolio covers the full spectrum of bathroom furniture, from high gloss white units, through to fitted furniture, we have a product suited to every budget and style.

Our **NEW** Dimora Bella brand, designed and produced in Italy, further enhances our desire to offer the best in style and design at a realistic price point. The 3 ranges include multiple colour options, textures, sizes and configurations, with solid surface basin options to add a touch of class.

Our Genesis range of furniture focuses upon functionality and creativity. Offering many size and colour options our Richmond, Eden and Monica ranges offer superb versatility.

Our Genesis Deluxe range boasts a plethora of colours and shapes from the popular curve of the Oregon range to the sharp lines of the Zeto and Douro. Focussing upon painted finishes the Genesis Deluxe offers modern yet understated designs.

Our Ascent furniture is manufactured using the highest quality PVC wraps and melamine finishes and utilises the best of our ceramic basin offering. From traditional styles found in the Rimini and Belmont, to the modern finishes of Geo and Roma, the options are vast.

Made in Italy and comprising 3 ranges that exude class and elegance. This range is designed to offer multiple options and applications for design led bathroom design.

Our modular furniture collection has evolved, and now comprises of 6 colour options, 3 door finishes and many handle and worktop options. With both slimline and standard depth units available we are able to create a beautiful set for any space within the bathroom.

We have 3 main collections:

**Q-Line** - Offering versatility in slimline and standard depth and 3 colour options

**Ritz** - Offering a shaker style door in 2 wood finishes

**NEW Arden** - Offering a handleless door in 2 colour options with Sonoma Oak carcasses

### Benefits of Solid Surface Worktops:

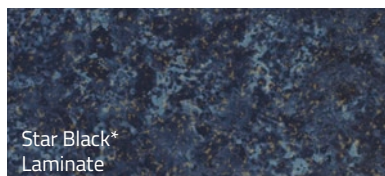

- Non-porous – Can be cut and remain water resistant
- Homogeneous – Same colour throughout core, even after cutting
- Easy to Buff out scratches
- Easy to Clean due to non-porous nature

## Towel Rails

A towel rail not only offers functionality in heating the bathroom, but also offer design and colour characteristics to complement and contrast other items within the bathroom environment.

Selecting the right towel rail can pull together different shapes and styles to complete the overall feel of the room.

A simple ladder rail, such as the QX Flat and Curved, offers a minimalist approach and is available in several sizes and colour finishes, that can be linked to our Tap and Furniture ranges.

Our Traditional rails, offer an element of grandeur, whilst providing great outputs when it comes to heating the room. Available in White, Chrome, Anthracite and Antique Copper finishes, there is scope for creating a modern take on a traditional aesthetic.

The diversity of our Designer Rail collection is what sets it apart. With an increasing selection of Black and Anthracite rails, our offering is at the cutting edge of design. The introduction of Brushed Brass, Matt Black and some landscape style radiators, has created great depth within the offering.

Another key feature of many of our rails is creating towel drying shelves and hangers. Look out for the integral loop design of the Royal Bajan or Ebony rails, as well as the heated hangers built into the Salerno rail.

Many of our rails offer the ability to heat the room using electricity rather than connecting to the central heating. We have several options to control this functionality, as well as dual-fuel options as well.

No towel rail is complete without matching valves, and these are available in every colour we offer and in a range of styles.

Why not convert your choice of rail to All-Electric operation

CONVERSION  
OPTIONS

## All Electric Options

- Simply select a suitable rail for electric conversion - highlighted with the above logo.
- Add £85.00 +VAT for the conversion to All-Electric use, including a pre-blended heat-transfer fluid, with frost and corrosion protection.
- Add your choice of Electric Element
- Decide if you require a Thermo Control Plate (supplied separately)
- Arrange for a suitably qualified electrician to fit your electric towel rail

CONVERSION  
OPTIONS

## Dual Fuel Options

To provide dual use of your towel warmer from the central heating system in winter and with your electric element during the summer months.

- Simply select a rail suitable for installation of an electric element - highlighted with the above logo.
- Select your choice of element based on the required Watt output and length of element (detailed below and opposite)
- Decide if you need a Chrome T-Piece, Corner Adaptor or Thermo Control Plate
- Arrange for a suitably qualified electrician to fit your electric towel rail, having selected the appropriate valves for your application

## Electric Element Options

Electric Elements, including Chrome T-Piece - Adding an electric element to one of our QX rails gives you the flexibility of heating your rail electrically during the summer months, as well as operating as part of your central heating system in the winter. IP Rating - IP64

Refer to the details of your specific radiator for recommended lengths and watt requirements

### Description

A Division of Qualitex Supplies

# Terms & Conditions

1. Claims for shortages or non-delivery of goods must be made within 24-hours of receipt, otherwise claims cannot be entertained.
2. All products must be carefully checked prior to installation, as installation is considered as acceptance of quality, size, style and specification.
3. In the event of a guarantee claim relating to the performance of the product, the liability of Qualitex is limited to replacing the product supplied and does not extend to consequential loss or damage arising from a defective product or installation.
4. All prices and specification details are subject to change without prior notice. Photographic sets will sometimes include props and only the items listed are included in the price quoted.
5. All orders are accepted subject to availability and all delivery dates are approximate. No liability for failure to supply can be accepted by Qualitex Supplies or our Showrooms.
6. Qualitex guarantees to replace any faulty products free of charge within 12 months of purchase following inspection and with presentation of proof of purchase (subject to terms)
7. All product guarantees are subject to our full terms and conditions of sale and requires installation by a suitably qualified installer in accordance with the fitting instructions.
8. The product guarantee will be invalid if it has been modified, misused, neglected, wilfully or accidentally damaged or not maintained, cleaned or cared for.
9. The guarantee applies to the original purchaser only and is not transferable without agreement in writing.
10. Exclusions & conditions apply to most Lifetime Guarantees.
11. Do not allow bathroom furniture to be subjected to direct contact with liquids including water splashes without drying off the surface.
12. Measurements are generally shown in mm
  - **Furniture:** width x depth/projection x height
  - **Baths:** width x depth/projection x height
  - **Enclosures:** width x height
  - **Basins:** width x depth
  - **Mirrors/Cabinets:** width x depth/projection x height
  - **Towel Rails:** height x width
  - **Accessories:** width x depth/projection x height
